Introduction

I am a Software Developer with over one year of experience in Full Stack Development. I'm eager to learn, improve, and take on new challenges. I'm looking for an opportunity where I can apply my skills, gain valuable experience, and work on meaningful projects that contribute to both my personal growth and the success of the company.

Education

JECRC University , Masters in Computer Application	Aug 2022 – Aug 2024
• CGPA: 8/10	
MIMT Kota , Bachelors in Computer Application	Sept 2018 – May 2021
• Percentage: 70%	

Experience

Software Developer , LearningBix – Jaipur, Rajasthan	Feb 2024 – May 2025
• Experience in React.js with a focus on frontend development and UI/UX design for web and mobile platforms, including work on the BixCode website and BixChamp application	
• Built custom extensions for the BixCode platform using TensorFlow.js, OpenCV, and other AI/ML models, enabling advanced block coding features	
• Integrated Firebase (authentication, Firestore, real-time database) and REST APIs into frontend projects to enhance functionality and performance	
• Applied machine learning in frontend applications, bridging AI capabilities with interactive, user-friendly interfaces	
UI/UX Intern , TopperWorld – Remote	Aug 2023 – Sep 2023
• Worked as a Remote UI/UX Intern for 2 months, designing clean and responsive web/mobile interfaces using Figma	
• Created wire-frames, prototypes, and collaborated with developers to bring designs to life	

Projects

Old Bike Selling Platform	Project
• Developed a React-based E-commerce platform which sells old 2nd hand bikes in which users can filter and search relevant bikes	
• Tools Used: React.js	
College Sneek	Project
• Developed the frontend of a College Finder website using HTML, CSS, and JavaScript, allowing users to search for colleges through an interactive interface.	
• Tools Used: HTML, CSS, JavaScript	

Technologies

Languages: Java, JavaScript
Web: HTML, CSS, ReactJs
Backend: Node.js, Express.js
Database: MySQL, MongoDB
Tools: Git, VS Code, Figma, Canva
